## Consents - Building Consents and Building Inspections

Council has two key roles in Building Control. One is the processing, inspecting and certification of building work via the Building Consent process. The other is that of a Territorial Authority with the primary focus on Public Safety. With particular emphasis around Building Warrants of Fitness, Swimming Pools and Earthquake Prone Buildings. In addition to this the TA function deals with illegal buildings, enforcement actions and general guidance.

Council's Consent and Inspections role is independently assessed every two years as a Building Consent Authority.

Given the range of building project work that Council processes, a range of fees are applicable. These usually consist of an initial fee and any further fees required are charged at an hourly rate if technical advice or processing exceeds the initial fee.

**These charges apply to all actions of the Council for which a charge may be levied pursuant to Section 219 and 240 of the Building Act 2004. The following outlines general fees for processing Building Consents. Further detail is provided under headings in the tables below:**

### Inspection Fees rate duration

All fees for Building Consent Inspections are valid for the two year duration of a building consent. If you require an extension any inspection carried out during the extension period will be at the rate applicable at the date and time of the inspection.

### Investigation/Enforcement Fees

The Council will investigate instances of alleged non-compliance with the Building Act 2004, the Building Code and related matters. In the event that an investigation concludes that an offence has occurred, costs associated with such investigations, calculated in accordance with the hourly rate specified above, will be recovered from the offending party or owner of the property on which an offence has occurred. Where a non-compliance with the Building Act, Consent or Building Code requires a Notice to Fix Council will also charge for the cost of the Notice.

### Please also note that:

- The standard fees in this schedule are minimum fees.
- Building consents will be granted and released once full payment of the fees has been receipted.
- Where the cost of processing significantly exceeds the fee or deposit stipulated below, then an actual time charge shall be payable at the hourly rate as set out in the schedule below.
- Fees associated with processing the building consent cover the assessment only. Inspections, lodgement, Code Compliance Certificate (CCC) and other professional fees are charged separately.
- An initial lodgement fee is required with all Building Consent and Certificate of Acceptance (COA) applications.
- COA's require the highest level of technical input which may result in additional fees.
- Council will refund any unused portion of fees for cancelled or withdrawn consents.
- Specialist services (payable at cost) and Central Government levies payable via Council are additional to fees and charges.
- Fees are charged based on the market value of the building project or as specifically identified.
- The deposit fee is the total of the document lodgement fee, the planning check fee and the processing fee, based on project value unless otherwise stipulated.

### BUILDING CONSENT PROCESSING FEES (subject to the building Act 2004)

**Building projects valued at \$20,000 and over** are subject to levies from the Department of Building and Housing (DBH - part of the Ministry of Building, Innovation and Employment) and the Building Research Association of New Zealand (BRANZ). Processing fees excludes Inspections and other incidental fees.

## Consents - Resource Consents

<b>Timing of Payments</b>			
All the charges and amounts listed in this schedule (unless otherwise specified) are payable in advance of any action being undertaken by the Council. Pursuant to section 36(7) of the Resource Management Act 1991, the Council need not perform the action to which the charge relates until the charge has been paid in full.			
<b>Fixed Initial Deposit Charges</b>			
Fixed Initial Deposit Charges are levied at the start of the application process and are payable at the time an application is submitted to the Council for processing. Notwithstanding that a fixed initial deposit charge may be paid the Council will commence processing the application only when it is satisfied that the information received with the application is adequate. Fixed Initial Deposit Charges are not subject to the rights of objection and appeal.			
Since resource consent applications can vary significantly in their content and nature, the Council cannot set one Fixed Initial Deposit Charge that would be fair and reasonable in every case. The fixed charges shown in the schedule are the minimum Fixed Initial Deposit Charge for that particular application category. A fixed charge higher than the minimum could be required and this would be dependent on the nature and scale of each specific application (see miscellaneous section). During the course of processing an application, the Council may charge additional charges in relation to costs incurred above the fixed charge already received. Pursuant to section 36(7) of the Resource Management Act 1991, the Council reserves the right to cease or suspend processing of any consent where any amount invoiced remains unpaid.			
The Fixed Initial Deposit Charges this year have been increased to more closely reflect the actual costs of processing the applications, which will then allow for a quicker issuing of the completed consents. For the larger and more complex applications additional 'Fixed Initial Deposits' may be required or more frequent invoicing may occur.			
For public notified and limited notified resource consents there is an additional 'Fixed Initial Deposit Charge', which needs to be paid before the notified process is begun, to cover the costs of notification. For applications that require a hearing it is likely there will be further costs and applicants may be required to pay these prior to the commencement of the hearing.			
Any unused portion of your deposit will be refunded.			
<b>Additional Charges</b>			
Additional charges will be required under section 36(3) of the Resource Management Act 1991 where the fixed charge is inadequate to enable the Council to recover its actual and reasonable costs relating to any particular application. An additional charge to recover actual and reasonable costs will be made where the costs exceed the fixed charge paid. Additional charges may be invoiced on a monthly basis as they are incurred.			
<b>Set Fees</b>			
Set fees are payable at the time of application and no additional charges will be made.

## Resource Consents - Monitoring

Monitoring of Land Use Consents			
There shall be a charge for every land use consent (which will be refunded if consent is refused) relating to the monitoring and associated administration of the consent (Resource Management Act section 36(1)(c)).			
There are two levels of monitoring fees:			
	Units	2014/2015	2015/2016
A. To monitor progress with giving effects to the consent and compliance with consent conditions for minor resource consents - minor waivers e.g. yard encroachments. (This charge is specifically aimed at homeowners making small-scale alterations where few if any conditions are imposed.)	Fixed Initial Deposit Charge	\$190.00	190.00
B. To monitor progress with giving effect to the consent and compliance with consent conditions for all other resource consents.	Fixed Initial Deposit Charge	\$320.00	320.00
<b>NB:</b> For larger applications that have numerous conditions or require specialist input such as engineers or other specialists for auditing expert reports this fee will be increased to cover these additional costs.			
If adverse effects arise from the development, or breaches of conditions are continuing, or repeated, and Council officers determine that more site visits are required, a per visit charge applies.	Additional charge	\$155.00	\$155.00
<b>NB:</b> Any additional charges of Council officers or specialist time in connection with monitoring and compliance of conditions of the resource consent this fee will be increased to cover these additional costs.

### Categories

The licensing system has five fee categories, which reflect the range of cost/risk ratings.

Total rating	Fee category
0-2	Very low
3-5	Low
6-15	Medium
16-25	High
26 plus	Very high

### Determining a premises' cost/risk rating

Premises' cost/risk rating is determined by a combination of factors.

Table 1 shows how premises' cost/risk rating are determined. For example, a bottler store (scores 15) closing at 11:00 pm (scores 3) with two enforcements in the last 18 months (scores 20) would have an overall cost/risk rating of 38.

## Trade Waste

The Council's wastewater systems, like most town and city systems, were designed to handle domestic wastewater. While most of the wastewater the Council treats is domestic in nature, some industries can produce wastes that take up a significant portion of our treatment facilities, known as trade waste. Trade waste is any liquid that is discharged to the wastewater system from commercial, industrial, manufacturing or trade premises resulting from any processes or operations. The unpredictable nature of trade waste can have a significant adverse impact on the wastewater systems and as such the operational costs of the systems themselves.

In 2011 the Council undertook a public consultation process on the implementation of a Trade waste bylaw. Under this bylaw the Council assessed the wastes discharged into the sewer that are generated as part of a commercial process. We have developed a model to calculate the cost to treat wastewater so that the costs are shared more equitably between domestic and commercial users. The objective of the trade waste bylaw is to encourage the removal of trade waste from our wastewater systems in order to reduce costs to the ratepayer. (NB: for the first year at least we are only proposing to charge a portion of the costs attributable to trade waste through this bylaw) In cases where the trade waste volumes or loading concentration discharged are of a low level, no charges are made beyond those already recovered through property rates.

Category A represents high risk premises that could discharge harmful or toxic substances into Councils waste water systems. Category B represents medium risk premises that could discharge harmful or toxic substances into Councils waste water systems. While the above table provides an indicative charge based on industry averages, it is a guide only, the actual charge levied will be based upon actual volume and load discharged from the premises using the following proposed table of charges.

For example - seafood processors. We have a number of very small operators in this category, they will not be charged anything like the amount shown in the above table.

It is intended that billing calculations will be based on a percentage of actual water consumption for each premise based on water meter readings. However some of the smaller operators in category B above may elect, subject to Council approval, to pay on average consumption and loading for the business type.
